**INFORMATION DISCLOSURE STATEMENT**

Sir:

In accordance with 37 C.F.R. 1.98, I am submitting a completed "INFORMATION DISCLOSURE STATEMENT BY APPLICANTS" (*Form PTO/SB/08A*) with patents and/or publications as delineated therein attached.

DE 197 57 305 discloses the method involves operating the control elements of the machine in a defined sequence in order to gain programming access to the microprocessor, then the microprocessor is programmed by operating one or more of the control elements in a predefined manner for each parameter or operating step.

DE 103 07 756 discloses the method for adjusting the settings of a household appliance, whereby a user selects a program and operating parameters via an operating element (3). Certain information of relevance to the user is output to a display (2) during programming, program execution and after the program has completed. An Independent claim is made for an operating device for setting program and display parameters for a household appliance.

If no translation of pertinent portions of any foreign language patents or publications mentioned within the "INFORMATION DISCLOSURE STATEMENT BY APPLICANTS" is included with the aforementioned copies of those applications, patents and/or publications, it is because no existing translation is readily available to the Applicants. As per the Notice in 1273 OG 55 (August 5, 2003) no copies of any above-mentioned US patents and US patent application publications are submitted for this application which was filed after June 30, 2003.

Respectfully submitted
